

# Leann DeLorenzo

## Co-Founder

Our co-founder Leann DeLorenzo, is no stranger to the aviation industry. She has worked for American Airlines traveling the world as flight attendant for the past 10 years and continues to do so. Leann has a passion for traveling and helping others, while she loves getting paid to travel she also wanted more of a challenge, hence why she decided to get her ratings in rotor craft and not fixed wing.

Leann was born and raised in New Jersey. She attended Temple University for her bachelors degree in communications. After completing her degree she moved to Orlando, Florida where she worked in the hospitality industry for Walt Disney World and completed her masters degree in business. Fast forward a few years, when she decided to complete her doctorate in business administration while flying. If that wasn't enough of an accomplishment she decided she wanted to take the controls into her own hands and learn to fly.

In Leann's free time she enjoys training for and racing triathlons and marathons, cooking, and spending time with her family and two dogs; Napa and Roo.
